Internet banking

- I would like to register for internet banking.
- I have forgotten my internet banking access code.
Please issue me with a new code.

If you have a joint account, each account holder must complete their own Internet banking services form.

Transfer limit amendment

The daily external transfer limit on your S1 Account, S2 Bill Paying Account, loan accounts (excluding fixed loans) and Teachers Credit Card accounts is \$5,000 per day. Your daily external transfer limit does not include transfers to other Teachers Credit Union accounts. You can request to increase or decrease this limit below. Requesting a higher limit may increase your liability for unauthorised transactions. If you require a permanent daily transfer limit greater than \$5,000 you must already have an activated security token or SMS security. See the Security options section.

Security options

To improve our internet banking security we offer an additional layer of protection from fraud with one time password security. A one time password is a 6-digit number generated by a security token or sent via SMS to your mobile phone. You can request both a security token and SMS security to provide you with choice and convenience each time you log into internet banking. SMS security can be requested in internet banking. A security token can be issued by selecting the option below:

Online statements

Your statements are available online. Each month, we can email you when your statement is available to view. You can then download and save your statements for future reference.

- I elect to receive my statements via internet banking. I understand that paper statements will not be forwarded to me and I can choose to commence receiving paper statements at any time by contacting Teachers Credit Union.
